MURRAY'S J. A. M. COMBINATION

This illustration shows a Complete Outfit consisting of an Improved All Porcelain Lavatory mounted on a Square Plain Pedestal with Closet Combination possessing the same lines. The Tank being recessed, allows for close roughing, taking up less room and enabling Closet and Lavatory to be set on symmetrical lines, making a most desirable Outfit and enabling to be placed in space which otherwise would have to be filled with an inferior combination.

Complete as described.. $50.00

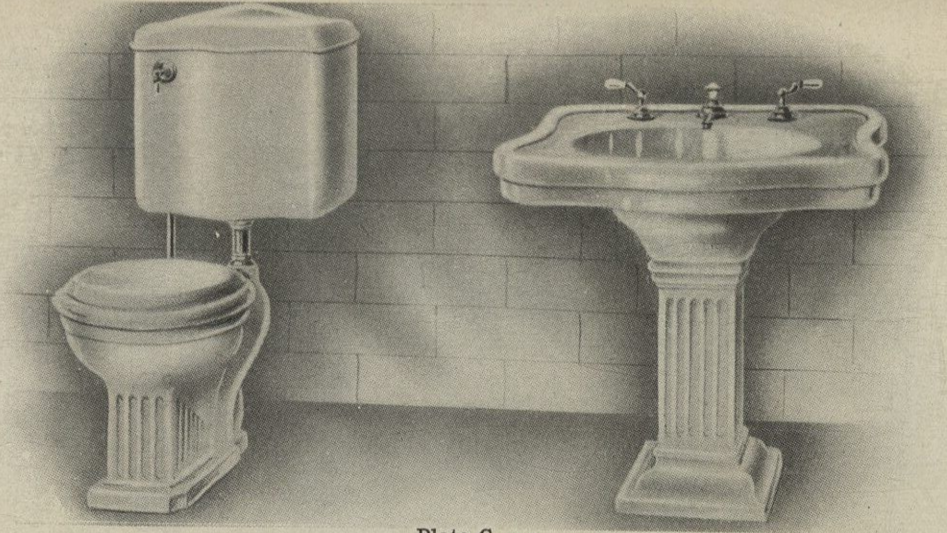

Plate G 515

MURRAY'S "COLONIAL" COMBINATION

This illustration shows a complete Outfit, consisting of an Improved Wave-line Lavatory mounted upon a Fluted, Square Pedestal with Closet possessing the same symmetrical lines, also a Swell Front Tank, which adds a graceful effect, making it the most desirable outfit for high-grade plumbing.

This combination is made from superior chinaware, which is a vitreous white china body of the greatest durability.

Syphon Jet Closet with White Celluenamel Seat, Side Lever Tank, Pedestal Lavatory, with N. P. China Handles and China Waste Top. Fuller Combination Fixture, N. P., ⅜-in., Angle or Straight Supplies, 1½-in. ½ S or Full S. N. P. Trap, with or without Vent.

We can furnish the above in any style wood, color or finish desired. Prices on application.

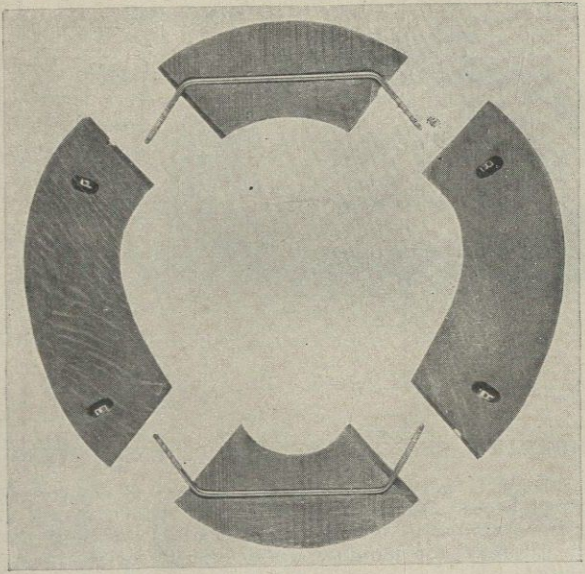

Plate G 1302

This cut shows a rear view of the construction of the Guaranteed Seat upper and lower.

The upper and lower sections have been cut through the center of the wood—exposing the rustless Steel Rod with its threaded ends. These ends are inserted into the adjoining pieces and nuts and washers, let in by means of small mortises cut in the back of the seat, are screwed up, bringing all four pieces securely together and forming a seat that appears to be made from one piece of wood.

In addition to this all joints are tongued, grooved and glued insuring a seat that will not warp, split or come apart at the joints under any conditions.

The small mortises in the back of the seats are filled with special preparation, which becomes as hard as the wood itself and harmonizes with the color.

All Seats are made from 1½-in. stock, especially selected and kiln dried; making, when finished, the strongest and handsomest Seat on the market.

Cast Iron Jacket

Sheet Iron Jacket—

No. 1½, 7½ in. Diam., 18 in. High, ¾-in. Tube...........	$5.50
No. 2, 7½ in. Diam., 20 in. High, ¾-in. Tube (mfr. gas)	6.50
No. 3, 7½ in. Diam., 24 in. High, ¾-in. Tube (mfr. gas)	10.50

The No. 1½ Heaters are usually used with 30-gallon boilers; the No. 2 with 40-gallon; the No. 3 with 50-gallon and larger.

Cast Iron Jacket, Single Coil—

No. 6—7 in. Diameter, 17 in. High, ¾-in. Tube......	$6.25
No. 7—7 in. Diameter, 19 in. High, ¾-in. Tube......	7.50
No. 8—7 in. Diameter, 21 in. High, ¾-in. Tube......	8.75

Nos. 6 and 7 Heaters usually used with 30-Gallon Boilers.

No. 8 Heater usually used with 40 and 50-Gallon Boilers.

Each size with the exception of the No. 3 is capable of the same gas consumption and it follows that the larger the heater the less gas it requires proportionately. The difference in first cost of a larger heater will soon be overbalanced by the saving in cost of operation.
